

J. Andrews  
Art & Design

SHORT STORY: I have always loved to draw and sketch. As a creative director/ graphic designer, I've used this skill extensively throughout my career. In 2015 I began to be more closely involved in my mother's care as her health declined. During this time I was gifted some thick squarish paper from a friend who is a nurse in a surgical setting. Used to package sterile equipment, and often thrown out or recycled, I found it to be wonderful to draw on. It soaks up the water colors brilliantly, and I began drawing, filling stacks of paper with flow drawings. When my mother passed in 2017, I consciously decided to take the commodity of time I had spent with her, and spend it on my art practice. This intention has brought me here, to offering this line of cards. Each of them is created from an intention of openness, interconnectivity, and love.

Cards are 5x5" with white envelope printed locally on 100# Accent Opaque White Cover. **Order Minimum \$75**
